

Dear Clients,

With the boom of internet shipping and the plethora of skin products available from various sites several concerns have arisen regarding the purchase of products that I retail. Simply put, do not purchase your products from any 3rd party vendors such as Amazon, EBay and others! They are not authorized distributors of the brands that I carry and the products are not legitimate. They are either “dumped,” outdated, counterfeit or black market. They may harm your skin! Please purchase your products only from me or directly from the company website. You will need an access code for this so please contact me directly and I will provide it to you. Please remember that purchasing from any other party other than myself or an authorized site hurts my business and supports unsavory practices!

Thank you,  
Millicent Audain
